**Subject:** Summary of needs

Please send me an e-mail summary of the details of what you guys are looking for to get Dallas West done. I need to understand what your companies and Comer will need to work the deal as described in the meeting. If it looks workable, then let's meet with him and hear what he thinks he can do to get our district 5 deals done. If the situation makes sense for Odyssey, we can get agreements done and move forward. Remember time is short and daylight is burning on the contract time line.

Bill
